

STEM CLUB

Offered by Mrs. Bettdur - Room #712

Develop a passion for inquiry and problem solving with an after school program focused on the key components of science, technology, engineering and mathematics. Students will be encouraged to build their own natural curiosity through engineering and hands-on learning. This STEM program will help students build solid critical thinking skills while having fun and discovering how things work.

SCIENCE ⚙️ TECHNOLOGY ⚙️ ENGINEERING ⚙️ MATH

Please fill out the form and bring it to
Mrs. Bettdur in room 712 or the Front Office by January 31st
